ONE SINGLE SOLUTION TO ALL OF THE PROBLEMS

[EJ: In the absence of a current writing from Commander Hatonn we will reach back some 17 years to see what he had to say about the future--which seems to be "now". Our old friend Eustace Mullins is still exposing the so-called Jews and nobody does it better so we are pleased to honor him with this re-publication.]

From: CHAPTER 13 of Phoenix Journal #41,
Page 144:

DESTRUCTION OF A PLANET Zionism IS RACISM

*"He is your enemy and ye have made him to be!
Ye have been blinded by thine ignorance and it
has brought you into the pits of slavery unto the
Vipers."*

REC #1--HATONN, THURSDAY, DECEMBER 12,
1991

Dharma, we shall continue writing of the control upon your very lives through the pharmaceutical houses of the Elite Zionists.

I recognize Eustace Mullins for the information I am going to use because if you cannot recognize the earth connections, we are wasting our time and efforts. I

am going to speak of your very lives which you entrust to physicians totally controlled by humanity's destroyer. I ask you to get material for backup for I have neither the time nor inclination to write more on the matter in this dissertation. You will take responsibility for your own self and those entrusted into your care or you may continue in the suicide at the hands of that enemy.

I want you to remember something as I recite names, dates and places of these controllers and you will note, if you have read our disclosures, that the NAMES are the same in every facet of your life. The adversary has all but won the "war" as it has moved far beyond the "skirmish".

In the *PROTOCOLS* it is mandated that the children become doctors and lawyers, etc., so that total control can be accomplished as all industries, banks and pharmaceutical houses become Khazarian-Zionist. GO READ AGAIN, CAREFULLY, *THE PROTOCOLS OF THE ELDERS OF ZION* AND MANIFESTO WITH ACCOMPANYING LETTERS OF INSTRUCTION. "THEY" HAVE PULLED IT OFF, WORLD!

The instruction for doctors becomes more blatant: "... become doctors so that you can go into the houses and kill the Goyim". Now, I ask you, how can a

doctor do that? By drugs, of course, and murder by surgery and injection.

Remember that the symbol of a physician is a staff with serpents. The Khazars are "serpent people" by their own definition and before I move into the Drug Trust, I wish to write again a short reminder of that "Serpent" group. Remember also that PROTOCOL III opens with a reference to the "Symbolic Snake of Judaism" and the following account is given of this symbol:

QUOTE:

According to the records of secret Jewish Zionism, Solomon and other Jewish learned men already, in 929 B.C., thought out a scheme in theory for a peaceful conquest of the whole universe by Zion.

As history developed, this scheme was worked out in detail and completed by men who were subsequently initiated in this question. These learned men decided by peaceful means to conquer the world for Zion with the slyness of the Symbolic Snake, whose head was to represent those who have been initiated into the plans of the Jewish administration, and the body of the Snake to represent the Jewish people—the administration was always kept secret, ***EVEN FROM THE JEWISH NATION ITSELF!*** As this Snake

penetrated into the hearts of the nations which it encountered it undermined and devoured all the non-Jewish power of these States. It is foretold that the Snake has still to finish its work, strictly adhering to the designed plan, until the course which it has to run is closed by the return of its head to Zion and until, by this means, the Snake has completed its round of Europe and has encircled it—and until, by dint of enchaining Europe, it has encompassed the whole world. This it is to accomplish **by using every endeavor to subdue the other countries by an economic conquest.**

The return of the head of the Snake to Zion can only be accomplished after the power of all the Sovereigns of Europe has been laid low, that is to say, when by means of economic crises and wholesale destruction effected everywhere, there shall have been brought about a spiritual demoralization and a moral corruption, chiefly with the assistance of Jewish women masquerading as French, Italians, etc. These are the surest spreaders of licentiousness into the lives of the leading men at the heads of nations.

A map of the course of the Symbolic Snake is shown as follows: Its first stage in Europe was in 429 B.C. in Greece, where, about the time of Pericles, the Snake first started eating into the power of that country. The second stage was in Rome in the time of Augustus, about 69 B.C. The third in Madrid in the time of Charles V., in A.D. 1552. The fourth in Paris about 1790, in the time of Louis XVI. The fifth in London from 1814 onwards (after the downfall of Napoleon). The sixth in Berlin in 1871 after the Franco-Prussian war. The seventh in St. Petersburg, over which is drawn the head of the Snake under the date of 1881.

All these states which the Snake traversed have had the foundations of their constitutions shaken—Germany, with its apparent power, forming no exception to the rule. In economic conditions England and Germany are spared, but only till the conquest of Russia is accomplished by the Snake, on which at present (i.e., 1905) all its efforts are concentrated. The further course of the Snake is not shown on this map, but arrows indicate its next movement towards Moscow, Kieff, and Odessa.

It is now well known to us to what extent the latter cities form the centers of the militant Jewish race. Constantinople is shown as the last stage of the Snake's course before it reaches Jerusalem. (This map was drawn years before the occurrence of the "Young Turk"—i.e., Jewish--Revolution in Turkey.)

Remember also, that the term "Goyim", meaning Gentiles or **"non-Jews" is used throughout the PROTOCOLS.**

END OF QUOTING

IN THE UNITED STATES

Don't be comforted that as I outlay the next portion for you that you will find the major workings within the U.S. That only means that you have been under control for a lot longer than you can imagine.

Now, "Where," you ask, "is the head of this Zionist Snake"? Ah—but you KNOW! The head snake comes right out of the English Crown and the

Committee of 300 who already rule your world—the U.S. has only gone back hook, line and sinker into the British Commonwealth. These people in charge do not ever act as "Christians" and never have—they serve (by their own statement) Lucifer—SATAN! I told you long, long ago that the ones calling themselves "JEWS"—ARE NOT! THEY ADORNED THEMSELVES IN "JEWISH SHEEP COSTUME", CHANGED THE LANGUAGE TO SUIT THE NEEDS FOR DECEIT AND HAVE NO CONNECTION WITH THAT WHICH YOU PERCEIVE TO BE "JEWS"! THEY ARE NOT HEBREWS; THEY DO NOT FOLLOW THE TORAH (THEY ARE PURELY HUMAN-ORIENTED TALMUDISTS); THEY ARE NOT JUDAISTS; THEY ARE NOT SEMITES; THEY ARE PURELY SATANISTS—THE ANTI-CHRIST OF REVELATION! THEY SERVE THE BLUE TURBAN (FLAG) OF THE SERPENT PEOPLE AND THEY WILL STOP AT NOTHING, INCLUDING TOTAL DESTRUCTION OF THE PLANET, TO GAIN CONTROL OF THE PHYSICAL GLOBE AND ALL MATERIAL "STUFF" WITHIN AND ON IT—INCLUDING YOUR VERY SOUL!

[EJ: If we re-read that paragraph 6 times so that its truth can sink in all of the money that we have spent on subscribing to CONTACT will have been well spent.]

Back to the "Drug Trust"

DRUG TRUST

I will mostly be quoting but since I have not the time nor space to fully quote all, I shall simply acknowledge source and write. I shall not CHANGE anything from the original document and I will comment within brackets ([]).

In 1987, the eighteen largest drug firms were ranked as follows:

1. Merck (U.S.) \$4.2 billion in sales.
2. Glaxo Holdings (United Kingdom) \$3.4 billion.
3. Hoffman LaRoche (Switzerland) \$3.4 billion.
4. Smith Kline Beckman (U.S.) \$2.8 billion.
5. Ciba-Geigy (Switzerland) \$2.7 billion.
6. Pfizer (U.S.) \$2.5 billion (Standard & Poor's give its sales as \$4 billion).
7. Hoechst A.G. (Germany) \$2.5 billion (Standard and Poor's lists its sales as \$38 billion Deutschmarks).
8. American Home Products (U.S.) \$2.4 billion (\$4.93 billion according to Standard & Poor's).
9. Lilly (U.S.) \$2.3 billion (\$3.72 billion Standard & Poor's).
10. Upjohn (U.S.) \$2 billion.
11. Squibb (U.S.) \$2 billion.
12. Johnson & Johnson (U.S.) \$1.9 billion.
13. Sandoz (Switzerland) \$1.8 billion.
14. Bristol Myers (U.S.) \$1.6 billion.
15. Beecham Group (United Kingdom) \$1.4 billion (Standard & Poor's gives \$1.4 billion in sales of the U.S. subsidiary—\$2.6 billion pounds sterling as overall income).
16. Bayer A.G. (Germany) \$1.4 billion (Standard & Poor's gives the figure as \$45.9 billion Deutschmarks).
17. Syntex (U.S.) \$1.1 billion.
18. Warner Lambert (U.S.) \$1.1 billion (Standard &

Poor's gives the figure as \$3.1 billion).

Thus we find that the United States still maintains an overwhelming lead in the production and sale of drugs. In the United States, the sale of prescription drugs rose in 1987 **[H: The book was published in 1988.]** by 12.5% to \$27 billion. Eleven of the eighteen leading firms are located in the United States; three in Switzerland; two in Germany; and two in the United Kingdom. Nutritionist T. J. Fry notes that the Drug Trust in the United States is controlled by the Rockefeller group in a cartel relationship with I.G. Farben of Germany. In fact, I.G. Farben was the largest chemical concern in Germany during the 1930's, when it engaged in an active cartel agreement with Standard Oil of New Jersey. **[H: By the way, how many of you realize that British Petroleum OWNS Alaska, USA?]** The Allied Military Government split it (Farben) up into three companies after World War II, as part of the "anti-cartel" goals of that period, which was not unlike the famed splitting up of Standard Oil itself by court order, while the Rockefellers maintained controlling interest in each of the new companies. In Germany, General William Draper, of Dillon Read investment bankers, unveiled the new decree from his office in the I.G. Farben building. **[H: Please do not forget that I.G. Farben had the largest industrial business in the Auschwitz prison camp. It was and always has been a "Jewish" (Zionist) company.]** Henceforth, I.G. Farben would exist no more; instead, three companies would emerge—Bayer, of Leverkusen; BASF at Ludwigshafen; and Hoechst, near Frankfurt. Each of the three spawned is now larger than the old I.G. Farben; only ICI of England is larger. These firms export more than half of their product. BASF is represented in the United States by Shearman and Sterling, the Rockefeller law firm of which William Rockefeller is a partner.

The world's No. 1 drug firm, Merck, began as an apothecary shop in Darmstadt, Germany, in 1668. Its president, John J. Horan, is a partner of J.P. Morgan Company, and the Morgan Guaranty Trust. He attended a Bilderberger meeting in Rye, New York, May 10-12, 1985. In 1953, Merck absorbed another large drug firm, Sharp & Dohme. At that time, Oscar Ewing, the central figure in the government fluoridation promotion for the Aluminum Trust, was secretary of the Merck firm, his office then being at One Wall Street, New York.

Directors of Merck include John T. Connor, who began his business career with Cravath, Swaine and Moore, the law firm of Kuhn, Loeb Company; Connor then joined the Office of Naval Research, became Special Assistant to the Secretary of the Navy 1945-47, became president of Merck, then president of Allied Stores from 1967-80, then chairman of Schroders, the London banking firm. Connor is also a director of a competing drug firm, Warner Lambert, director of the media conglomerate Capital Cities ABC, and director of Rockefeller's Chase Manhattan Bank. Each of the major drug firms in the United States has at least one director with close Rockefeller connections, or with a Rothschild bank. Another director of Merck is John K. McKinley, chief operating officer of Texaco; he is also a director of Manufacturers Hanover

Bank [**H: the two banks just merged!**] which Congressional records identify as a major Rothschild bank. [**H: Surely you can see the mad merging of Rockefeller and Rothschild happening all around you!**] McKinley is also a director of the aircraft firm, Martin Marietta, Burlington Industries, and is a director of the Rockefeller-controlled Sloan Kettering Cancer Institute. Another Merck director is Ruben F. Mettler, chairman of the defense contractor TRW, Inc.; he was formerly chief of the Guided Missiles Department at Ramo-Wooldridge, and has received the human relations award from the National Conference of Christians and Jews—he is also a director of Bank of America.

Other directors of Merck include Frank T. Cary, who was chairman of IBM for many years; he is also a director of Capital Cities ABC, and partner of J.P. Morgan Company; Lloyd C. Elam, president of Meharry Medical College, Nashville, TN, the nation's only black medical college. Elam is also a director of the American Psychiatric Association, Nashville City Bank, and the Alfred P. Sloan Foundation, which gives him a close connection to Rockefeller's Sloan Kettering Cancer Center; Marian Sulzberger Heiskell, heiress of the *New York Times* fortune. She was married to Orville Dryfoos, the paper's editor, who died of a heart attack during a newspaper strike; she then married Andrew Heiskell in a media merger—he was chairman of *Time* magazine and had been with the Luce organization for fifty years. She is also a director of Ford Motor. Heiskell is director of People for the American Way, a political activist group, chairman of the New York Public Library, and the Book-of-the-Month Club. Also on the board of Merck is a family member, Albert W. Merck; Reginald H. Jones, born in England, formerly chairman of General Electric, now chairman of the Board of Overseers, Wharton School of Commerce, director of Allied Stores and General Signal Corporation; Paul G. Rogers, who served in Congress from the 84th to the 95th Congresses; he was chairman of the important subcommittee on health; in 1979, he joined the influential Washington law firm and lobbyist, Hogan and Hartson. He is also a director of the American Cancer society, the Rand Corporation, and Mutual Life Insurance. [**H: Could you conceive of a “possible” conflict of interests here?**]

Thus we find that the world's No. 1 drug firm has two directors who are partners of J.P. Morgan Company, one who is director of Rockefeller's Chase Manhattan Bank and one who is director of the Rothschild Bank, Manufacturers Hanover; most of the directors are connected with vital defense industries, and interlock with other defense firms. On the board of TRW, of which Ruben Mettler is chairman, is William H. Krome George, former chairman of ALCOA, and Martin Felstein, former economic advisor to President Reagan. The major banks, defense firms, and prominent political figures interlock with the CIA and the drug firms.

NUMBER TWO FIRM

[**H: I am only going to go through a few of these for the players are the same in all instances. I only want to get your attention—if you want more**

information—GET THE BOOK *MURDER BY INJECTION.*]

The No. 2 firm is Glaxo Holdings, with \$3.4 billion (yr) in sales. Its chairman is Austin Bide; deputy chairman is P. Girolami, who is director of National Westminster Bank, one of England's Big Five. Directors are Sir Alistair Frame, chairman of Rio Tinto Zinc, one of the three firms which are the basis of the Rothschild fortune; Frame is also on the board of another Rothschild holding, the well known munitions firm, Vickers; also Plessey, another defense firm which recently bid on a large contract with the U.S. Army; Frame is president of Britoil, and directors of Glaxo are Lord Fraser of Kilmarnock, who was deputy chairman of the Conservative Party (now the ruling party in England) from 1946 to 1975, when he joined Glaxo; Lord Fraser was also a member of the influential Shadow cabinet; B.D. Taylor, counselor of Victoria College of Pharmacy and chairman of Wexham Hospital; J.M. Raisman, chairman of Shell Oil UK Ltd., another Rothschild controlled firm. Lloyd's Bank, one of the Big Five, British Telecommunications, and the Royal Committee on Environmental Pollution; Sir Ronald Arculus, retired from Her Majesty's Diplomatic Service after a distinguished career; he had served in San Francisco, New York, Washington and Paris; he was then appointed Ambassador to Italy, and was the UK Delegate to the United Nations Convention on the Law of the Sea, which sought to apportion marine wealth among the have-not countries: Arculus is now a director of Trusthouse Forte Hotels, and London and Continental Bankers; and Professor R. G. Dahrendorf, one of the world's most active sociologists and a longtime Marxist propagandist. Dahrendorf, a director of the Ford Foundation since 1976, is a graduate of the London School of Economics, professor of sociology at Hamburg and Tübingen, parliamentary Secretary of State at the Foreign Office, West Germany since 1969, and has received honors from Senegal, Luxembourg and Leopold.

The Rothschilds apparently appointed Dahrendorf a director of Glaxo because of this emphatic Marxist pronouncements. The European of the Ford Foundation, he claims, in his book, MARX IN PERSPECTIVE, that Marx is the greatest factor in the emergence of modern society. Dahrendorf's principal contribution to sociology has been his well-advertised concept of the “new man”, whom he dubbed “homo sociologicus”, a being who has been transformed by socialism into a person whose every distinctive feature, including racial characteristics, have disappeared. He is the modern robot, a uniform creature who can easily be controlled by the force of world socialism. Dahrendorf is the apostle of the modern faith that there are no racial differences in any of the various races of mankind; he denounces any mention of “superiority” or of differing skills as “ideological distortion”. Dahrendorf is a prominent member of the Bilderbergers; he attended their meeting at Rye, New York from May 10-12, 1985. [**H: Remember that the Bilderbergers, CFR, Trilateralists, etc., are but fingers of the Committee of 300 who rule your globe, control all of the banks through the Bank of International Settlements (Basel, Switzerland) and frankly the rest of everything of material value—as**

well as your brains and actions.] He is professor of Sociology at Konstanz University as well as his other previously mentioned posts.

Thus we find that the world's No. 2 drug firm is directed by two of the Rothschild's family's most trusted henchmen and by the world's most outspoken explicator of Marxism.

NUMBER 3 DRUG FIRM

The world's No. 3 drug firm, Hoffman LaRoche of Switzerland, is still controlled by members of the Hoffman family, although there have been rumors of takeover attempts in recent years. The firm was founded by Fritz Hoffman, who died in 1920. The firm's first big seller was Siropin in 1896; its sales of Valium and Librium now amount to one billion dollars a year; its subsidiary spread the dangerous chemical, dioxin, over the Italian town, Seveso, which cost \$150 million to clean up in a 10 year campaign. His son's widow, Maya Sacher, is now married to Paul Sacher, a musician who is conductor of the Basel Chamber Orchestra. Hoffman had added his wife's name, LaRoche, to the family company, as is the custom in Europe; the Hoffmans still control 75% of the voting shares. The Sachers have one of the world's most expensive art collections, Old Masters and modern paintings.

In 1987, Hoffman LaRoche tried to take over Sterling Drug, a venture in which they were aided by Lewis Preston, chairman of J.P. Morgan Company; he also happened to be Sterling's banker. In the Brouhaha, Preston decided to retire. Eastman Kodak then bought Sterling, with backing from the Rockefellers. The chairman of Hoffman LaRoche is Fritz Gerber, a 58 year old Swiss army colonel. The son of a carpenter, he became a lawyer, then chairman of Hoffman LaRoche. Gerber is also a director of Zurich Insurance; thus he is associated with Switzerland's two biggest firms; he draws a salary of 2.3 million Swiss francs per year, plus a \$1.7 million working agreement with Glaxo holdings.

Hoffman LaRoche received a great deal of publicity in April 1988 because of unfavorable revelations about its acne drug, “Accutane” after the Food and Drug Administration publicized figures that the drug had caused 1000 spontaneous abortions, 7000 other abortions, and other side effects such as joint aches, drying of skin and mucous membranes, and hair loss. Hoffman LaRoche was faulted by FDA for purposely omitting women, and particularly pregnant women, from the studies on which it based requests for approval of Accutane. The company was aware that Accutane caused serious effects when taken during pregnancy.

Hard on the heels of the Accutane revelations, Hoffman LaRoche made new headlines in the *Wall Street Journal* with Congressman Ted Weiss's demand, reported on May 6, 1988, that a criminal investigation be launched of the forty deaths, recorded since 1986, caused by taking Versed, Hoffman LaRoche's tranquilizer which is a chemical cousin of its best selling drug, Valium.

Dharma, we need a break and I shall decide whether or not I need to outlay any more of this or if the readers see the handwriting yet. It is going to continue

through all 18 about the same, i.e., the No. 4 drug firm, Smith Kline Beckman, banks with the Mellon Bank. Its chairman, Robert F. Dee, is a director of General Foods, Air Products and Chemicals and the defense firm, United Technologies, with interlocks with Citibank.

Perhaps one of the most important things you readers must know is that your FDA, who approves drugs, foods, etc., for your safety is made up mostly by these Pharmaceutical firm's personnel. Do you still think you have much of a chance for "good health"?

Can you also see WHY any alternative form of healing is illegal and/or so restricted as to be all but ineffective? You have a few groups who have pulled themselves up out of the morass by cheerily meeting the rigid requirements of the AMA for licensing and thus can practice their art somewhat. Chiropractors are gaining in respect but are still called "quacks" by the Medical groups. It will be, however, through these groups that truth will be made seen or there will be no "health"—good or bad. If the "death" industry controls the "life" industry—which do you think will win? I will leave you with these thoughts to ponder.

Thank you,

Hatonn to clear.

[EJ: Project Camelot is best known for its work on the ET question but real investigators and truth bringers will always be drawn to see the whole picture. This interview contains some excellent material and confirmation of our writings.]

Dr. Bill Deagle: Telephone Interview Transcript
29 April 2009

Kerry Cassidy (KC): Hi, this is Kerry Cassidy and Bill Ryan from Project Camelot. It's April 29th, a Wednesday, and we're here with Dr. Bill Deagle.

We're very happy to be talking to you Bill. We are trying to get an update on what's going on with the virus. I don't know if it's really officially a pandemic. Maybe you can explain that to us; when something becomes a pandemic versus just some kind of virus going around.

Bill Deagle (BD): Yes, if you actually stick to the six phases of the World Health Organization Categorization, it's actually in Phase Five of a pandemic right now. Phase Six is the out-of-control, top level of it. And that's by definition. It means it's rapidly spreading to other continents, it's having close-to-close human-to-human contact and it is causing deaths. Now there's probably more than one strain circulating.

One of the concerns that I have is that this virus... I agree with Dr. Len Horowitz (I just saw his video clip today). All the evidence indicates that it was a CDC World Health Organization virus. They were working with a company called Novavax, but there's actually six companies making these vaccines, including Sanofi Pasteur, that has 382 million doses of a dual RNA biphasic vaccine.

The RNA vaccine where they've given the first phase,

as long ago as three or four months ago, to our troops. And they've already announced earlier this year that they are going to give it to all the county sheriffs and their families. And the second phase, when they "have an anti-genetically more accurate second phase vaccine."

KC: I'm sorry, I'm not understanding you. Are you saying that this virus is part of something that has been given to our troops as a vaccine?

BD: Well, no. It's a separate thing. The one given to our troops is a first phase, called an RNA vaccine, by Sanofi Pasteur. What Dr. Horowitz is showing in his video clip (which you may want to talk to him)—and I agree it's the CDC World Health Organization—there's direct complicity with them and British recombinant viral biologists that have actually worked on this project, and he has all the connecting dots.

It fits in with the documentation which I received from scientists and doctors in March of 1997 that was smuggled out of the Basel Headquarters of the World Health Organization. They were going to resurrect with gene fragments the 1918 swine human flu recombinant, and then convert it with some Avian genes, put it into Asia and then later release a bridge virus, which is what this virus is.

There are two strains in Mexico City. One that's making people very sick and the other one that's actually killing people. So, we won't know for a couple of weeks, but if it starts to show selective deaths of only Hispanic people in America, then we know—like AIDS, which is 16 times more likely to kill blacks than to kill whites—that it is a race specific bioweapon.

There are six companies producing vaccine for the World Health Organization and the international community. Pfizer Pharmaceutical, Sanofi Pasteur, Baxter Laboratories that actually had this accident in 18 different labs in four countries, and shut down the bio-test lab in the Czech Republic. Their phone is off the hook. Nobody's answering the phone. We've been having our people—Alexander Jones, an NIH whistleblower—calling them daily and they are now not only not returning calls, either Baxter or Biotest in the Czech Republic, their phone is disconnected.

But the Sanofi was the one where the U.S. government contracted for 382 million plus doses of this binary vaccine. Their branch plant in Beijing shipped it four-and-a-half to five months ago, and it is now shipped to major military U.S. bases. They've already been administering it for the past four months to our troops; the first phase of this binary vaccine. And they say the second phase will be "anti-genetically more accurate" for the "Avian Flu." It's an Avian flu vaccine. Research about it...

KC: But you can't vaccinate against it; is my understanding.

BD: Right, but what they're doing is they're saying they're doing it. And they've given an RNA vaccine they say will prime them so they will have an immune response within a week rather than two to three weeks.

This latest thing that Novavax is working on is a

similar virus in which they actually recombined the H1N1 swine flu from 1918, that was resurrected by Dr. Taugenberger—[ed. note: Dr. Jeffery Taugenberger]—at the CDC, with the H5N1 lethal strains and human viruses, and they actually created vaccines which they were playing around with. Novavax, and what Dr. Horowitz has stated and it's probably correct, is that this company's virus is virtually identical to the one which has been released in Mexico City.

So they probably sprayed it over Mexico City because when you have a weakened population with a lot of biotoxins in the environment it makes it easier for them to become ill. So, yeah, this is absolutely manmade. I don't call it a swine flu because it's not. With swine flu 20 percent of all veterinarians in Ohio, according to research, are positive for antibodies to swine virus and they don't get sick or die.

KC: I'm sorry; I really have to get back to the troops. What is it they're giving our troops and what is going to be the result of what they're giving our troops?

BD: What they're doing is inserting what's called H5N1 RNA. In other words, they're inserting some RNA which actually stays in their body and modifies the genetics of the troops so that their immune systems will respond more quickly when they give them the second phase of this vaccine that is called a binary or second phase vaccine.

KC: When you say: *their immune systems will respond more quickly*, you're saying that...

BD: That's their theory. That's what they're saying.

KC: ...in theory, they will fight off the disease faster?

BD: That's what they are saying.

KC: Because there is no real reason, in my mind, why they would want our troops to die of a virus.

BD: Well, I would think that there is actually a very good reason they would want our troops to die.

KC: Okay. Other than in battle? Because this is what they use them for.

BD: No. *They want our troops to die so they can bring in foreign troops on American soil because they will shoot at American citizens and disarm them. American troops won't. That's already been established. So they want our troops sick and they want our troops dead.*

KC: Okay, that's quite a statement.

BD: Yeah, it is. It's true. I have that from inside sources, too, and they're very concerned inside the military. The county sheriffs were announced—we had whistleblowers from several states including Arizona and Arkansas, and other states that we had—that they were... Also, the Department of Homeland Security, as well as the state health departments in states across the United States, has been planning to vaccinate all the county sheriffs and their families with the same vaccine. But, as far as I know, I haven't had my whistleblowers tell me they've actually done it yet.

KC: Okay. Again, why would they vaccinate? If

you say the vaccine is actually preparing them... I'm getting the impression that you're telling us that it's preparing them for the next wave of this virus.

BD: Well, the one that they're...

KC: It's not going to protect them; it is going to kill them. So again, why would they want to kill...

BD: We don't know. All we know is, number one: it may give them a false sense of protection, at the very least.

Number two: this is totally experimental. There's no research to show that you can make a binary vaccine and you can prime someone with this RNA so that when they get a second phase that's anti-genetically correct... The thing is, the virus is going to come up with multiple sub-strains, and it's extremely unlikely that they can create one quick enough. The fastest you can use it, if you use cell culture, is probably 60 days minimum. If you use cell culture and egg membrane, you can use 6 months, at least.

And the virus changes so quickly that it wouldn't be genetically correct, and number two, I don't believe the vaccines work anyway. In fact, the research has shown that those who received the vaccine to the swine virus in 1918 were the ones that died. They depress Sermion [sp?] systems; they increase the risk of new recombinants forming.

Like they were giving the swine vaccine in Mexico City until the weekend when the WHO finally reported—after me and many others were saying they shouldn't be vaccinating—they actually discontinued the program. But that would actually insert new DNA, new viral material so you could actually form recombinants, or new viruses, that would swap DNA and create new viral strains that could be more lethal and spread more quickly.

In Mexico City and other areas and by the way this is spreading very rapidly. It is almost certain there's a strain that causes a bad flu and there is a strain that causes a bad flu that kills. It causes a cytokine storm.

KC: But my understanding is that people in the U.S. are not dying from this.

BD: Right. My guess is the strain that got into the U.S. is a very bad flu but it is not the strain yet. But the fact is... Here's what happened: in H5N1—and I had the documents 12 years ago—the primary reason, the number one reason when I started radio broadcasting fulltime four years ago plus was to warn people of this because I had the documents; I was given the information to warn people that this is coming.

This is one of the primary vehicles that the globalists want to use to quell any resistance to the new financial order that's coming; to quell resistance to revolution in Mexico and the United States when the economy collapses and they switch to a new financial order worldwide.

They are bringing in a Hate Crimes Bill today: HR1913. This is the 29th, which is to be voted on, and it is the most noxious hate-crime bill which will affect everyone of every group, either skin color, or religion or lack of religion or whatever. It'll affect

everybody. This will allow them to have totalitarian control and selective prosecution of anyone who speaks of against any issue that they don't like you to talk about.

Bill Ryan (BR): Hello, Dr. Bill, it is good to be talking to you.

BD: Yeah, it is good to talk to you again, Bill.

BR: You're in the excellent position to understand the controller's thinking. If you were one of their strategists, what do you think their strategic plan is, of which this may be a very early stage.

BD: What they have done is release a bridge virus. [he spells] b-r-i-d-g-e. This bridges and spreads very quickly between humans. The earlier strain that's in the United States is a bad flu but it isn't lethal. The second strain which is in Mexico City is killing people at a relatively rapid rate; we're going to guess somewhere at around eight to ten percent case fatality rate, which is pretty high, to go four times higher than the 1918 swine flu pandemic, which is a swine-human recombinant.

I went over the DNA letters 3 years ago with Henry L. Niman, head of Recombinomics that has more patents than any other Ph.D. virologist in history on recombination, which is how viruses change; they swap DNA. I think they have already pulled the trigger. The hammer has fallen and it will come in waves that could occur over months, or years, or even more than a decade.

So if we get over this, as Napolitano has stated as the Head of Homeland Security, former governor of Arizona, we are almost certainly looking at a wave. Whether it's six weeks or three months or six months, that is going to have a much higher case fatality rate and it's shown already that they're doing nothing and plan to do nothing to stop the virus from moving.

Now they could do things like having an antiviral hepa filter in every aircraft, tracking every person that flies or crosses a border for at least ten to twelve days; making sure they don't have symptoms, tracking all their contacts. They could give everybody antipathogenics, actually build their immune system like Super Silver or NutriDine and the element allicin, which if you just take a little bit of it, it prevents you from getting a primary infection.

They could issue true nanoparticle masks—and the best is the Nano Mask—or a NIOSH N100 mask, and if you are in an area you probably also need an eye shield because you can get it sprayed in your eyes. If you use natural good hygiene practices, really, you could stop this cold.

The fact is the government is doing nothing to stop it. They are not doing anything to stop commerce or truckers coming in from Mexico or airline flights. They are not doing anything to track anybody. I brought these issues up in 2002 with the FBI and the CDC director for bioterrorism, along with Dr. Jay Reddington, Infectious Disease Director at the University of Colorado, because I was the point man under Dr. John Hughes of Rocky Mountain OccMed. We worked on Operation TOPOFF and Dark Winter in the late '90s doing bioweapons war simulations.

The fact is the government is doing everything to make sure that if this does acquire new genetics and new sub-strains emergent that enter the United States and other countries, they're going to declare martial law. They have now—and I have this from my military contacts, trained over 50,000 returning U.S. troops—there are special crack troops now upgraded to handle, in these new Chem-Bio suits, the administration of drugs and/or vaccines at gunpoint. And also civil detention camps are now being set up as quarantine camps all across the United States.

As of two weeks ago they had 50,000 already trained and ready to roll. This is before this, what I call the lab flu, North American lab flu. **[EJ: We called it NAFTA flu.]** I'm not going to call this swine flu because there are genes from the Avian flu; the new Avian flu. It has genes from Swine, from Human and Asian flu; genes from three continents, so this is not... It's coming from the wrong place; it always emerges from Asia.

So this is a laboratory flu that almost certainly was released in Mexico City on purpose. The virus is basically going to acquire new genetics. It also grows well in birds and animals, like pigs and probably cattle. It's going to allow the jumping of those Avian genes, H5N1, that are killing millions of birds on every continent.

I have reports from game wardens in British Columbia, Washington state and Oregon, and other places across the US and Canada that millions of birds are dying; like the Shearwater Gulls are dying. The Canadian geese are returning and their chicks are dying of this strange virus, which we are pretty certain is the H5N1 Avian flu, so there is already a pandemic among birds. But until a few months ago it couldn't grow in less than 106 degrees [Fahrenheit] because of the PB2 gene.

Well, in the wild, we discovered that the PB2 gene change is present in some places in Asia. But the PB2 gene change is already in the H1N1 virus. This new lab virus has that PB2 that allows it to grow in human nasal mucous areas, and it also has a full receptor binding domain so that it can attach to human cells very efficiently. And if it acquires the H gene, which is the 6 polybasic amino acids, it can grow on brain and other tissues.

The other changes including the deletion on the NS1, is going to allow it to completely bypass the immune system. So it's going to be able to transfer the lethality from the H5N1 that is already killing millions of birds, into humans and possibly other animals, etcetera.

So that's going to come in waves. It could occur over a period of two months or even one wave after another. In 1918 the first wave was relatively mild flu that killed very few people. It was more like a serious typical flu. And when it came back in the late summer and early fall—the second wave—it started killing people very, very seriously with a case fatality rate between two-and-a-half to five percent.

We don't have all the statistics in now but we are guessing that the current case fatality for the more lethal strain in Mexico is probably around ten percent, which is pretty high. My guess is that, as it acquires

new genes, that case fatality rate will rise up toward 20 to 30 percent.

The biggest danger is that, because of fear, transportation, travel, and infrastructure—including distribution of food and goods—will stop or shut down significantly. That's where the government will declare martial law and close the borders, and try to control transportation, so food and other materials are still being shipped to the big cities. Otherwise, the chaos will actually cause more problems. In fact, we did a computer simulation in Denver back in the '90s and we estimated if there was a total shutdown of infrastructure caused by the fear of a pandemic it would kill more people than the actual virus.

BR: In a sense, Dr. Bill, it doesn't really matter what the lethality is, or even if there really is an outbreak at all, if enough people believe there is and the media is used in the way that we know that it can be used.

BD: Yes.

BR: Actually, that's all they need to do.

KC: Then what we're talking about here is people actually staying in observer mode and taking a step back. What I understand is: normal flu kills 30,000 to 50,000 people a year in the United States.

BD: That statistic is actually one that they always throw out and it is actually based on an estimate. It's not a real number and it is not based on actual facts. The flu itself, basically, unless you're in a debilitated state, usually doesn't cause a problem. The difference with the 1918 flu is that it strikes the young and healthy because it bypasses the body's immune system until it overwhelms the body. You can incubate it for 8 days and people don't even know. You're not even sneezing or coughing, but you're touching your face or other body parts and passing it to other people. [Then you can] spike a fever and have a seizure and in 45 minutes be dead.

KC: Okay, I understand this. You're a doctor, Dr. Bill. If we could talk about how they can prevent this?

BD: Well the first thing they need to think of is, number one, this is just a bug. Like any bug. In fact, it's probably no more transmissible than the regular flu. The First Line of Defense Kit I put together has the NutriDefense which blocks the virus that attaches to the cells with a special magnesium salt of ECGC catagens, and it has monolaurin that blocks viruses so that they cannot replicate.

The Nutrimune boosts the natural killer cells to fight all pathogens. It has the Defense Wipes. It has monolaurin and lauric acid and nisin to shift all viruses and all bacterial cell walls, but it is totally biodegradable so it won't destroy the environment. And we have the NanoMasks; and we have a good supply of those at the moment although it is going quickly.

The reason I mention this is that people can try to get other things. If they can't get this, they want to get at least a NIOSH N100 mask. If they use things that are antibacterial off the shelf of, say Wal-Mart, they're not going to work because they are not antiviral. They're antibacterials and they are fairly mild,

like Purell Soap.

You want to prevent a primary infection so something as simple as our silver salt, called Super Silver, is the only one with a U.S. patent. The government and homeland security, for the past four years, have been buying literally container loads of this. And the reason is they know this works because we have tested it in labs in Brazil and overseas, and in the United States. It will kill a high pathogen like Avian flu. We've done actual tests in lab animals.

We know it will prevent primary infection, so as simple as a teaspoon three times a day of the Super Silver will do that. It is the same with our medical grade allicin and our very unique NutriDine. Other things people take, like they say: Well I'm going to take Oregano, or I'm going to... Those will help a little but there is no evidence that they are anywhere near in the class of the things that we're talking about.

You do not want to get a primary infection. If you get a primary infection with these organisms it's very, very dangerous because it is one of the higher pathogenic strains. There is no warning before you are going to hit a crisis, say a week or ten days after you get infected.

KC: Okay, my understanding is that colloidal silver is not the same thing as the type of silver you are supposed to be using.

BC: Well, colloidal... Yeah, this is a hundred times stronger. Colloidal silver is a large particle and different sized particles. The Super Silver is a silver salt so it doesn't bio-accumulate in the body. It is a uniform particle size which is tuned to a scalar frequency like Tesla to 910 terahertz, so it shatters the bonds of all pathogens. It has a tetra silver oxygen wrap on the molecule so that it actually creates a scalar signal. It has a capacity to penetrate through biofilms so it can kill at a distance. It doesn't even need to get in direct contact with the pathogens.

So it's very unique. It has three patents on the technology that no other silver, including OxySilver, Mild Silver Protein, any other silver in the world. Now I had Dr. Gordon Peterson on, he's worked with the Homeland Security on a program called AeroClave, and they haven't... I haven't talked to him in about a month and a half.

I don't know if they signed a contract but he has actually worked with Homeland Security. AeroClave will clear any international aircraft, like a Boeing 767, in 45 seconds of all pathogens, resistant TB, viruses, bacteria, by putting an aerosol into the aircraft and quickly vacuuming it out of the aircraft. It will kill all pathogens in 45 seconds.

KC: Okay, do they use it?

BD: They can't. I don't know if they have. He has already done presentations with them. An independent company that he worked with developed it for the airline industry and the government. This is the only silver that has been tested to do this. No other one. The government has the information; they have the research and we have the tests.

Now if people were to get one thing that's compact

and easy to carry, the one I would recommend is our NutriDine which is diatomic. It's very unique. It is a formula that was conceived and prophesied by Edgar Cayce.

So we have the NutriDine. It will quell all known pathogens. We have a clinic in India that is using this for the Untouchables that can't get any healthcare there, and we're using it to put AIDS into remission and to treat topical and internal cancers. It'll kill all known pathogens and parasites. The NutriDine is so powerful that as little as ten drops, three times a day, will kill all known pathogens; taken orally.

KC: Are you familiar with MMS? [ed. note: Miracle Mineral Supplement]

BD: MMS is a chlorine dioxide and it has been used for many years to kill pathogens. The problem is: any chlorinated molecule will attach to amide groups of amino acids so as well as an antipathogenic it also displaces iodine from the mitochondria so can cause problems with toxicity, so I wouldn't recommend MMS.

It will clear pathogens, just like antibiotics will. I think it's a very good antipathogenic but it has toxicity because it's going to attach to... it's going to release chlorine. Chlorine will attach to amide groups of amino acids and other molecules. It will form chloramines and therefore I believe it has toxicity. There is no need for that. The only safe halide is iodine in the body. Any other halide, which includes fluoride, bromide or chloride, or chlorine molecules, has toxicity.

BR: I had the pleasure of meeting personally with Jim Humble a few months ago, and he's the first to admit that he's not a microbiologist or a medical doctor. If one was pretty seriously sick, MMS might not be a bad option.

BD: If you can only mix this together and that is the only thing you have, absolutely, use it. For example, I am shipping at my own expense to some of these other companies, to our missionaries overseas, case lots of NutriDine. I'm doing that at my own expense so that they have it. They already have cases. We're able to cure intra-cerebral malaria, parasites, worms; we kill everything.

It sterilizes the water. So I would say, yeah, if you have no choice, by all means use MMS, but if you do have a choice... because if you do it for any length of time, you're likely to accumulate biotoxins. You know, obviously if you have a choice between life and death use your MMS, but if you have alternatives, you would be best to get the NutriDine first, and then the Super Silver or Allimed Allicin.

Allimed Allicin is a medical drug administered by doctors in Europe but I have access to sell it here in North America without a prescription. This will kill all pathogens. It'll kill Lyme disease, viruses, bacteria. We have proof that we can even give it to someone that's on intravenous antibiotics that's in the ICU [Intensive Care Unit] and it will save their life. We do that all the time, everyday. That's the way I would approach it is that yes, it will save lives but it's toxic.

BR: OK. That's very clear, Bill, thank you very

much for that.

BD: You're welcome.

BR: I think a lot of people wouldn't disagree with you, and I think that it's one of these things that's good for the occasional emergency, but prolonged use probably is not the ideal...

BD: Oh yeah. People who take it daily as a preventive or for a period of months or years, are going to get problems. But it's the same thing as people drinking water that's heavily chlorinated or with fluoride. You accumulate fluoride, and it calcifies the choroid plexus and the ventricles and the pineal gland, and it literally shuts down the third eye and astral eye so you can't see torsional vortex images, and you can't see transdimensionally.

So in terms of the spirit, it actually cuts off what is called the Cord of Living Waters so all halides, other than iodine, block and attack that part of the brain. It attacks the connection of the pineal gland in the sense of the Cord of Living Waters and the higher dimensional reality of what we are.

Chlorine is toxic. It's one of the reasons why they push chlorination of water, and fluoridation... [it's] why they want to push Sulfuryl fluoride. Which, by the way, isn't only even more toxic but it's 17,000 times more of a heat reflective when it gets in the upper atmosphere (and it doesn't degrade) than even carbon dioxide or methane.

BR: My only question now really is: what do you expect to see this summer in North America?

BD: Well, to be honest with you, we could stop this pretty quickly if we decided to take decisive action. If, for example, and I put this list together and we had a number of conferences with the military and other people in the last few weeks through Plains Radio. Carmen Reynolds is a Colonel in the Army.

The issue is this: If we decided to close the borders immediately; if we decided to screen everybody with a swab to determine if they carry a virus, and track them if they show positive for an Influenza A virus—which you can do a simple screening test—you may not get a subtype but you'll see if they are a carrier of the virus. If we were then to make certain that, in areas where there are outbreaks like in Mexico City, we would fly in large heavy-lift aircraft with existing...

Not drugs. We are not talking about TAMIFLU. TAMIFLU contains hallucinations, which will hallucinate you, and in some cases some people are so sensitive they actually... It's like taking PCP or Angel dust. It is a very, very serious bad trip. You don't want people walking around that are, say military service people, with body flak jackets on and Scott Air Packs under stress taking TAMIFLU and hallucinating.

When you give these drugs like TAMIFLU; already H1N1 worldwide is resistant to it. Amantadine, Ramitidine, and TAMIFLU. These current strains they are saying are sensitive to it, but in within four days of exposing a population to a continuous virus, you'll start seeing resistance show up. So in other words, if you use it now, you don't have something to use on someone who's dying from a very serious

infection. They have got a resistant strain in their body because two weeks or two months ago you gave that population TAMIFLU.

What they should be giving are NutriDine, Super Silver or Allicin. If they simply gave, for example, the average person... if they took one of our products that is called Better Than Greens with Allicin. If they simply took 180 mg of allicin, three times a day, they would probably not get a primary infection.

We have already done a study with ferrets and other animals in Brazil with high pathogenic Avian flu, and we transferred the weight on this—and this is actual studies done last year—that one teaspoon of our Super Silver silver salt for an average 70 kg adult will prevent a primary infection.

We know the same thing with our troops with our NutriDefense. I put in the NutriDefense something so that if they are exposed to anthrax or spores that you cut out 98 percent chance of the possibility of infection by just taking one NutriDefense per day. 98 percent.

So there's extremely simple things like personal hygiene, travel... If every aircraft had a hepa viral filter; if they cleared every aircraft with the AeroClave system which already exists. There is a company where it's available right now. The airlines could gear up literally today to put it in place. This would die out in a matter of a week or two and the panic would be over.

If we would fly into countries where there are outbreaks, like Mexico City, and give these antipathogenics and start making sure all airliners in different countries use these technologies, the problem would die out in a month or so. And we would have some deaths, but we would have it under control.

What I'm concerned about is I think their agenda is they want to have enough crisis as a cover for the new financial system which they're setting up. Because already there's a contraction of the world economy and 40 percent of the world's wealth has disappeared. That disappearance is also [inaudible] by the collapsing...

And this is stated—and I had Joan Veon on my show just a few days ago—that the world financial experts at the Bank for International Settlements that just met in Europe is that the current world economy can only support 5 billion people but there are 6.5 billion plus people on the Earth, which means 1.5 billion are "excess population" based on the finances of our current world economy. They've created this crisis so that people cannot, with a day's work, get a day's food. So third world countries now, with the financial famine; they're compounding it because there's climate shift and that climate shift is going to get considerably worse.

And this is something I want to say prophetically: Starting this next month, May and going through to July–August, there's going to be a shift in under-oceanic currents in the Southern hemisphere. The first warning was the explosion of Tonga that came through the ocean surface with a 7.9 earthquake several weeks ago.

What's going to happen is under-oceanic volcanism

is going to change the climate, increase rainfall dramatically in some areas, in other areas there will be major floods and in other areas there will be increased and more serious drought. This, by just climate shift, will cause more food shortages. Crops will be flooded out because of the change in world air currents. A normal climate will be out the window.

So when you combine that with a pandemic... And the Baltic Dry Index now for shipment of manufactured goods as well as food is at its lowest since the second world war. We have a situation where they're purposely compounding it and there could be a very simple solution. So we need to get these solutions through to The Powers That Be to say: this could be stopped tomorrow.

We could solve the world's financial problems by correcting and making the Glass-Steagall Act. Like, for example, the country of Canada was much more responsible. They didn't allow the banking industry to turn it into a casino. We could make sure that we bring food into the third world countries because when you have starvation it increases the weakened immune system to make viruses more aggressive. So if this virus gets into a population that is starving, it's going to be transformed into a more aggressive deadly virus for us as well.

And we need to stabilize the world banking system without taking away the sovereignty of nations or transferring power to a bunch of international bankers that are not elected. So everything we're doing right now is actually leading us toward more chaos rather than order and it could be stopped tomorrow, including stopping this from turning into a true worldwide pandemic where millions or even billions could die, stabilizing our financial situation, and then dealing with the food supply by starting to gear-up food production and supporting it so that there is no farmers or businesses going out of business.

And we have the proper stabilization of our economy so the bubble economy, the illegal debt instruments that they have been circulating, we don't pour trillions more into the banks that are doing this. We put them into the debt restructuring as Lyndon LaRouche has said, and we get rid of these debt instruments. We put a moratorium on foreclosures of businesses and homes, we stabilize the food supplies of the third world so that they are not priced out of the staples that keep them alive, and we maintain control of international travel so that we don't allow this pandemic to shut down the world economy. The chances that it could shut it down, if we have a major high pathogenic death rate, is incredibly likely by this fall if we don't do these measures now.

KC: Dr. Bill, thank you for that; that's quite an overview. I have a couple of questions I want to ask you and we can discuss whether or not you want to go off the record with the answers or not.

BD: Sure.

KC: First of all, I've had some conversations with Cliff High, you know who he is?

BD: Yes, Cliff High. I think he is with the Web-Bot [project] or with Half Past Human. That's Half Past Human, isn't it?

KC: Yes, Half Past Human.

BD: Yes.

KC: And, he has said... You know, he actually has quite a bit of animosity toward you, and he has said that he thinks that you get a lot of your information from him.

BD: No, I don't.

KC: And I find that hard to believe myself, but I wanted to give you a chance to respond to that here if you want.

BD: I only had one conversation with Cliff and I talked to him once; called him and just: Hey, I've heard you on Jeff Rense's program. You said some pretty remarkable things that match up with what I say. And I want to share with him not only my first hand information, like this information I had from the World Health Organization and other sources that are, if you want to call it "classified" or the fact that I work with the government, and also the intuitive side. And he was a little upset about that. He said: I don't want to talk to you about it. And I said: Okay, that's fine.

And that's my only conversation; he seemed very upset about that. And, I don't subscribe to Half Past Human. The only information I've had is the occasional time I've been able to listen to him on Coast-to-Coast radio or Jeff Rense. That's it. So, if there's something...

KC: Okay, well he has told us that actually you had a doctor or somebody giving you that information.

BD: No, I don't.

KC: Okay.

BD: No I don't.

KC: It's very strange that when he...

BD: Now, why would he say that?

KC: I don't know. I actually don't know.

BD: Why would he say that? That's kind of strange. Here's the fact, okay? What he's doing basically is mining information from the global subconscious. In a sense what he's doing is: it's in a sense, almost like a... the best way to describe it would be a syntactical and emotive language global subconscious Ouija board. I guess that would be the best way. And he can pull up some information.

There's a bow shockwave of reality that bounces back toward the consciousness so that, in a subconscious way, people know. For example, people have precognition that there may be an accident or a relative that is sick or dying. So he's just pulling that information out. There's many intuitives, whether it's people like my friend John Boncore, who is a Mohawk prophet.

There are people in all kinds of intuitives and psychics, and people that use remote viewing that can see events coming. But as I tell people, they're not solids; they're liquids. They're not yet frozen. There's a degree of choice and timeline which is why I'm doing this presentation right now.

We, as a global consciousness, get to choose which

of those timelines. And my job is to act like the guy at the side of the road where there is a branch in the road and there are no road signs. So you ask the guide at the side of the road: Which road should I go down with my little cart?

And I'll say: Well, you don't want to go down this road here because it leads into the bottom of a valley where there's a jungle and there's alligators and wild animals. But over here, ten miles down the road, there's a community of nice people. They'll feed you, they'll will give you good shelter, etcetera.

That's what my job is to do. Now, so when I contacted him I'm not sure why he got so upset about this. It completely boggled me because I thought: Well, this is really good. We're having people from various different... how can I say, mining the information whether they are psychics or intuitives, or they are doing something like this, which is looking for a language that's embedded into the internet and using these web-bots to be able to go search for it. So, I thought it was a good thing. I was really surprised at his response.

KC: He believes you are an agent.

BD: An agent of what?

KC: That you work for the government?

BD: Oh, come on! That's so ridiculous.

KC: Okay. Now, you've worked for the government in the past though?

BD: No, I was a civilian doctor. I was an occupational doctor.

KC: But in black projects?

BD: No-no. Let me explain here. Yeah, right. Those kind of accusations you hear all the time. It's ridiculous. Do they realize the danger—the physical danger, the career danger—that I've gone through in order to tell people the truth? They have no idea. I'm like a William Wallace, okay?

When I worked in occupational medicine back in the early '80s, they made a decision in the government that they no longer wanted to have a lot of jobs done by people inside the military. Because they either didn't have the expertise, they wanted to hire a company and if they weren't satisfied with the work that was done by that company (i.e., medical or contract for specific things), so they started contracting out; especially during the era of Bill Clinton.

So what they did is they contracted for me. And my first major job for C-Com: to contract C-Com to handle Fort Carson, NORAD, Falcon Air Force Base, U.S. Space Strategic Command, the GPS Military-Grade system, and Directed Energy Weapons. The reason why I was their doctor was simply because I was their doctor. I took care of people that worked in these things; worked around these toxic things, worked around rocket labs, and I was their physician. They were not permitted, most of these people, to even talk to their colleagues who were in the next room, let alone the next building. But they would talk to their doctor.

And the only difference was with me, is that because I have a technical background in nuclear physics,

advanced computing, electronics, biotechnology; they would share with me. And after a while, because I'm a talker, they were more interested in what I would have to say about the bigger picture about what was going on at their facility, and they were more interested in telling me their little piece—that's very, very compartmentalized—than what I would tell them.

KC: Yes, I've heard you say that.

BD: So that's the reason why I have...

KC: I understand that, but I'm just trying to run these things by you so that you understand what you're up against out there. There seems to be...

BD: I have people who have written books as long as ten years ago when I spoke at the Prophecy Club, that literally—I can't believe this—but literally have written a book that I'm the antichrist. I mean, how foolish! [Kerry laughs] I mean, every day I put my personal life, my career, everything on the line to be the whistleblower for...

In fact, I just did an audio for tenth anniversary of Columbine. I was the examiner for the Englewood Fire Department and the first young man shot in Columbine outside the restaurant there, Mark Taylor. I was the exit examiner for the 5 Special Op Team of the Oklahoma City Memorial Building. I have been trying to do radial toxicology testing on the World Trade Center debris, and I'm writing the position paper which I'm going to present at We Are Change, New York City, on the eighth anniversary of 9/11.

I've been told by my radial toxicology colleagues, because I have advanced training in radial chemistry that if I order the tests the Department of Defense and the FBI will arrest me immediately for requesting the tests of debris which I have from the World Trade Center. Further proving that they not only used Thermate and other high explosives, but they used nuclear bombs in the buildings, okay?

KC: Okay, you know...

BD: People need to realize that I am a whistleblower central. That's why my Genesis [Communication Network radio show]... The number one reason, number one, that I did this is: twelve years ago, when I spoke at Human Life International in Zurich on the super-soldier program, which they tried to recruit me to in 1978 at UCLA VA/Wadsworth Hospital and I turned them down, is because I have the documents and the proof that they were trying to create a pandemic flu to bring the world, and literally we are going to enter the new world order with a mask. This is their plan. I had the documents 12 years ago.

So four years ago when I started my show it was to warn the people and tell them to get ready because this could be stopped very easily. We can decide for a future where millions do not need to die, and the economy does not need to shut down, and we don't need to have chaos in our cities.

KC: Okay. You know I appreciate everything that you've said and I was just trying to give you a chance to respond publicly to all of that, and if you're willing, we'll go ahead and release this part of this.

BD: Yes. Now here's the thing that is important,

okay?

KC: Yes.

BD: People need two things: They need to use their intellect... to study. And me, I tell them: Don't believe, just read. Okay? Read the stuff that is in the open media before they hear me or anything that's here on Project Camelot. And then they need to be very quiet and very humble, and need to pray and say: Now was what Deagle saying true? Or what Half Past Human is saying true or any other person that's an intuitive or psychic or a remote viewer or whatever.

Then they need to follow through with action. Because in my heart I don't want our society to shut down. I don't want people to die. I don't want our culture to become a matrix. I don't want horror to happen.

We have a timeline where we are getting closer and closer to where some of these issues become more inevitable if we don't change our trajectory, if we don't change the way we make choices, not just personally. And we have to stop this backbiting, this foolishness; and there's a degree of jealousy, too. I mean, to be honest with you, I'm a messianic believer, okay? I'm for all religions that firstly have spirituality and a connection with the Creator God and the Universe. All, okay?

But I want people to understand there is no room in our modern world, whether it's Half Past Human or any of the "Christian, Jewish, or other churches" for a real prophet, and that's what I'm called to speak as. There's no room. And I can tell you that. They do not want someone to come in and tell them that I was supernaturally given a command to go to Zurich, Switzerland and receive these documents which I didn't expect to receive. And then to have a number of events happen so I would be the number one whistleblower that the flu pandemic was coming.

Even inside the truth movement, I've received so much persecution from even other truthers who believe 9/11 was an inside job. You would not believe it, okay? But I'm willing to do the right thing because I have the truth and I have a concern and care for people.

KC: Okay.

BD: They need to see my heart. And if they are jealous of that, get over it. I'm not here to play games or egos; I'm here to serve my Creator God and save my fellow mankind and all living things on this earth from a horrible end. And that's where we are going.

We have to wake up and stop this pandemic, stop the economic meltdown, stop the State of Israel which is planning with our help to make a northern attack of nuclear sites and 1250 targets inside Iran. We already have a dialogue going on. We need to pray, for example, for President Obama that he will not serve his globalist masters but he will do the right thing so we can stop Israel.

If any of these one things happen, it's a perfect storm from hell. We are going to face a future that is going to be so noxious, so dangerous—people can't imagine what we are facing—but we can turn away from it.

We do not need to go there.

KC: Thank you, Bill. That's very, very, very succinct. I would like to ask you, regarding the Israel situation, you say they have targets within Iran. When are you saying that they are planning to attack Iran?

BD: I don't have a prophetic word but I can tell you from my military and also classified sources as well, the Israelis are going to do a full nationwide war game in June. They're also, this year (without a month designated), doing a U.S. Space Command Anti-Missile Star Wars Weapon Simulation with the United States and Israel. They do now have TAD, which is Theater Air Defense. It's an advanced Anti-Weapons System, along with the scalar plasma weapon and the chemical laser systems, able to knock out missiles that are coming into Israel. The problem is...

KC: You're saying they are going to do an exercise. When, exactly?

BD: They're doing an exercise in June. That's next month.

KC: And that's within Israel or with the U.S. and Israel?

BD: Within Israel. Now, there is another game going on with space command that is supposed to be sometime this year and I don't know what month yet, because my sources can't tell me. But, the one in Israel is June.

KC: Okay. Within these games sometimes, as what happened with 9/11, the game becomes a cover for some actual operation that takes place.

BD: Exactly. So it could occur in June during this game. The reason we look for it is that in order to do a modern advanced war you need what's called air based intelligence, etcetera, which is why they do supercomputers. They've got Space Based GPS. They have to have all their material in place, so it's very, very likely that the attack will occur in June during this war game. If it doesn't it's going to happen from that point to probably the early fall.

If we permit them to do it, the Strait of Hormuz and I was told this supernaturally 20 years ago—the Strait of Hormuz will be cut off. All the oil which goes to... about 80 percent of it goes to Asian countries. Indonesia, China, South Korea will lose their major supply of oil and the world economy will collapse. The disarray will cause the starvation of a billion people.

This we can avoid if we prevent Israel from making an attack. There is no need; as the dialogue is already started between Obama and Ahmadinejad, who is now going to the elections in the next few weeks. Ahmadinejad is now talking, which is a miracle. If we do not move toward peace, the war that we are going to see is not just going to take out people downwind of the Bushehr reactor, which is 62 tons of Uranium 35, but there is 1250 targets they are going to hit with nuclear weapons including neutron bombs, bunker busters, and these new advanced, what's called plasma warheads, okay?

If they do this, I cannot say that we will not have an exchange of other weapons. And almost certainly, and this is from actual sources, there are sleeper agents

inside the United States, Canada and Western world in Britain, that have third generation bioweapons developed by Russian scientists for the past 18 years since Glasnost and Perestroika. When these scientists were starving, the Syrians and Iranians hired them, and they have the most advanced biological weapons in history. They will make even the so-called hybrid flu look like it is nothing.

So the point is that we can turn back, but we need to hear. The reason I speak now as a prophet is to tell them: Turn back now because there is the way of light and safety and peace and the Coat of Many Colors of Joseph, who is my Father, okay? Because I'm of the tribe of Ephraim, or Joseph.

KC: Okay, yes. I appreciate that. You have to understand that we get people... I mean, to call yourself a prophet, this is not unusual. There are many, many, many people out there right now considering themselves the same way you consider yourself.

BD: I know. I hear about it all the time. It's really... it's disturbing. Anybody who wants to be a prophet is... how can I say, it's a job no one wants to apply for. If you do, it's because you are imbalanced. I do not want to do this job. I tried to escape it many times. Believe me, I have been swallowed in the belly of the whale.

KC: Okay, well...

BD: I've been put in the place of these things. If you want to do it, it's like cleaning a latrine while it's still being used and you are under it, okay?

KC: Well, Bill, you know Project Camelot could be put in that same category. We're actually... All of the people that are trying to warn the masses, if you will, as to what's really going on could be classified as prophets. It's better if we stay out of the sort of evangelical perspective of ourselves and kind of, you know...

BD: There's something I need to clarify. There are many people that receive a prophetic word, have an intuitive knowledge, have a technology that they use...

KC: Absolutely.

BD: ...just like there are "prophets" that are coming out of the Hopi Indian tribe and others. But there are those who "don't just operate and receive the prophetic word" now and then, but operate in the office of the prophet. I have to say this repeatedly so people understand it: the reason why I've been in all these places is because they needed trust.

There are lots of things I don't know, okay? There are lots of areas I'm not an expert in. But when I speak in an area like this flu or these wars or other things, I'm speaking in the office of a prophet. Someone who has the authority and right to say it. And you need to understand we have a choice now.

KC: I appreciate that. We are going to try to wrap this up right here now. Bill Deagle has to go as well. So I wanted to thank you, Dr. Bill Deagle for your willingness to confront and to be open and talk about issues that are sometimes antagonistic to yourself. That's a wonderful trait that you have and I just want

to honor you for that.

BD: Yes, in fact, we actually had a reconciliation; with Donna and Mark Taylor. I actually spoke with them through a live audio connection at the tenth anniversary of Columbine. That negativity, by the way, arose because they had an offer from a movie company to take the script, which we had been working on for over a year, into a big movie.

We didn't agree on the modus by which it was going to happen. They had been offered a lot of money and we didn't want it to be degraded. We wanted the truth to be brought out rather than to have it spawn into something else. And that's all reconciled. So, out of my discussion with you on that...

KC: Okay, well, thank you for that.

BD: ...so I can thank Project Camelot. Now I want to say one thing. There's a chorus—it's not just myself—there's a chorus of people who truly are called to speak prophetically that need to rise up and say the truth, after being very humble and making sure they don't have a personal agenda, that we need to turn back from this. We have people like I'm going to have on the program shortly, John Boncore, who's a Mohawk prophet. He was prophesized hundreds of years ago by his own people.

There's Hopi prophets, there's Jewish prophets, there's Christian, there's a list. There are people all over the world that are, literally I call The Coat of Many Colors. Every skin color, every nation, every religion who are starting to know it's a time of decision for mankind. We need to turn back now or we're going to face a whole confluence of super storms of economic, climate shift, biological warfare, and evil.

For example, there's very good evidence from Len Horowitz, and I believe he is correct, that the World Health Organization, the CDC and Novavax are behind this latest release of this weaponized plague that's been released in Mexico City. The globalists have published in their documents that they want to reduce the world population. We do not need to go there.

We can have an alternative future where mankind is safe; where people have true human rights. Where people have the right to grow and to believe and to have safety and healthcare and food and not be exposed to toxic poisons or electromagnetic radiation and have some degree of autonomy. But we are heading toward a world where autonomy is going to be a thing of the past, where mass starvation and violence are going to rule, and I don't want to see us go there. But we need to turn back now because we have a matter of months, not years left, to make that turn.

KC: Okay, thank you, Bill. Bill Ryan, is there anything you want to say before we end this here?

BR: I just want to say thank you very much Bill. There's total consistency with everything you're saying now and everything that a lot of people have heard or watched you say in your 2006 Granada Forum lecture. We have a team of transcribers who are transcribing that, and that's nearly finished now, and we are going to make that available to you as soon as we can for publication on your site and everywhere, so the whole

thing's Google searchable; translatable. We want to get this information out there and support you fully in everything you're doing.

BD: Well, I want to pray for people and for you, too—both you Kerry, and Bill—for the wonderful work you're doing to try to get people to realize that we are co-creators of our own future. We're not a victim of the future; we are the co-creator, but we also have to take our scepter. We have to also realize that if someone dies in a third world country that's an untouchable in India, or someone in Mexico City that's living on a garbage heap dies, we die. Some portion of us dies too.

If we allow the use of depleted uranium weapons to kill little girls in the Gaza City by Israeli troops, or we allow nuclear weapons to drop on the Bushehr reactor and downwind millions die from radiation poisoning, we die too. If we can feel that connectedness in spirit, as a cell in the body of mankind, we would repent and we'd turn back from that.

KC: Okay thank you. Very well put. All right, I'm going to close this down then. Thank you very much, Dr. Bill Deagle.

BD: Thank you Kerry, I really appreciate it. Thank you Bill Ryan and God bless everyone. Now's the time to have a backbone to stand up for the truth and to pray and to be humble and call on our creator to stand us up on our feet so that we can tell the truth to others that we have to turn back from war, from pestilence, and from economic greed and the idea that we need to reduce the world population with lies like a carbon tax...

KC: Absolutely.

BD: ...and all these other evils.

KC: All right thank you very much.

BD: Take care.

BR: Thank you, Dr. Bill.

BD: You're welcome. Bye.

Retired Vax Scientist Would Never Vaccinate His Kids

by Ken Adachi
8-6-2009

"If I had a child now, the last thing I would allow is vaccination."—Retired Vaccine Researcher to Jon Rappoport

Editor's Note—This interview was posted by Jon Rappoport in early January 2002. You will discover by reading it that the very issues we now face of FORCED vaccination of a laboratory-created vaccine to "protect" us against a laboratory-created "disease" (Swine Flu, Bird flu, etc.) was set into motion a long time ago.

The vaccine researcher quoted here flat out says that the World Homicide Organization, WHO, is driven by a DEPOPULATION agenda, and that many African leaders know full well that the explosive spread of HIV and AIDS in Africa was caused by WHO-sponsored vaccinations of the 1970s.

This former pharmaceutical insider also debunks

the widespread ASSUMPTIONS of vaccine "safety" promoted by orthodox medicine, the CDC, the National Institute of Health, state health departments, and their compliant media propagandists who are all parroting SUPERSTITIONS, rather than FACTS.—Ken Adachi

Retired Vaccine Researcher to Jon Rappoport: "If I had a child now, the last thing I would allow is vaccination." (Aug. 6, 2009)

Jon Rappoport (Q) Interviews a Retired Vaccine Researcher (A) (given the pseudonym of "Dr. Mark Randall")

Q: You were once certain that vaccines were the hallmark of good medicine.

A: Yes I was. I helped develop a few vaccines. I won't say which ones.

Q: Why not?

A: I want to preserve my privacy.

Q: So you think you could have problems if you came out into the open?

A: I believe I could lose my pension.

Q: On what grounds?

A: The grounds don't matter. These people have ways of causing you problems, when you were once part of the Club. I know one or two people who were put under surveillance, who were harassed.

Q: Harassed by whom?

A: The FBI.

Q: Really?

A: Sure. The FBI used other pretexts. And the IRS can come calling too.

Q: So much for free speech.

A: I was "part of the inner circle". If now I began to name names and make specific accusations against researchers, I could be in a world of trouble.

Q: What is at the bottom of these efforts at harassment?

A: Vaccines are the last defense of modern medicine. Vaccines are the ultimate justification for the overall "brilliance" of modern medicine.

Q: Do you believe that people should be allowed to choose whether they should get vaccines?

A: On a political level, yes. On a scientific level, people need information, so that they can choose well. It's one thing to say choice is good. But if the atmosphere is full of lies, how can you choose? Also, if the FDA were run by honorable people, these vaccines would not be granted licenses. They would be investigated to within an inch of their lives.

Q: There are medical historians who state that the overall decline of illnesses was not due to vaccines.

A: I know. For a long time, I ignored their work.

Q: Why?

A: Because I was afraid of what I would find out. I was in the business of developing vaccines. My livelihood depended on continuing that work.

Q: And then?

A: I did my own investigation.

Q: What conclusions did you come to?

A: The decline of disease is due to improved living conditions.

Q: What conditions?

A: Cleaner water. Advanced sewage systems. Nutrition. Fresher food. A decrease in poverty. Germs may be everywhere, but when you are healthy, you don't contract the diseases as easily.

Q: What did you feel when you completed your own investigation?

A: Despair. I realized I was working a sector based on a collection of lies.

Q: Are some vaccines more dangerous than others?

A: Yes. The DPT shot, for example. The MMR. But some lots of a vaccine are more dangerous than other lots of the same vaccine. As far as I'm concerned, all vaccines are dangerous.

Q: Why?

A: Several reasons. They involve the human immune system in a process that tends to compromise immunity. They can actually cause the disease they are supposed to prevent. They can cause other diseases than the ones they are supposed to prevent.

Q: Why are we quoted statistics which seem to prove that vaccines have been tremendously successful at wiping out diseases?

A: Why? To give the illusion that these vaccines are useful. If a vaccine suppresses visible symptoms of a disease like measles, everyone assumes that the vaccine is a success. But, under the surface, the vaccine can harm the immune system itself. And if it causes other diseases—say, meningitis—that fact is masked, because no one believes that the vaccine can do that. The connection is overlooked.

Q: It is said that the smallpox vaccine wiped out smallpox in England.

A: Yes. But when you study the available statistics, you get another picture.

Q: Which is?

A: There were cities in England where people who were not vaccinated did not get smallpox. There were places where people who were vaccinated experienced smallpox epidemics. And smallpox was already on the decline before the vaccine was introduced.

Q: So you're saying that we have been treated to a false history.

A: Yes. That's exactly what I'm saying. This is a history that has been cooked up to convince people that vaccines are invariably safe and effective.

Q: Now, you worked in labs. Where purity was an issue.

A: The public believes that these labs, these manufacturing facilities are the cleanest places in the world. That is not true. Contamination occurs all the time. You get all sorts of debris introduced into vaccines.

Q: For example, the SV40 monkey virus slips into the polio vaccine.

A: Well yes, that happened. But that's not what I mean. The SV40 got into the polio vaccine because the vaccine was made by using monkey kidneys. But I'm talking about something else. The actual lab conditions. The mistakes. The careless errors. SV40, which was later found in cancer tumors—that was what I would call a structural problem. It was an accepted part of the manufacturing process. If you use monkey kidneys, you open the door to germs

which you don't know are in those kidneys.

Q: Okay, but let's ignore that distinction between different types of contaminants for a moment. What contaminants did you find in your many years of work with vaccines?

A: All right. I'll give you some of what I came across, and I'll also give you what colleagues of mine found. Here's a partial list. In the Rimavex measles vaccine, we found various chicken viruses. In polio vaccine, we found *acanthamoeba*, which is a so-called "brain-eating" amoeba.

Simian cytomegalovirus in polio vaccine. Simian foamy virus in the rotavirus vaccine. Bird-cancer viruses in the MMR vaccine. Various micro-organisms in the anthrax vaccine. I've found potentially dangerous enzyme inhibitors in several vaccines. Duck, dog, and rabbit viruses in the rubella vaccine. Avian leucosis virus in the flu vaccine. Pestivirus in the MMR vaccine.

Q: Let me get this straight. These are all contaminants which don't belong in the vaccines.

A: That's right. And if you try to calculate what damage these contaminants can cause, well, we don't really know, because no testing has been done, or very little testing. It's a game of roulette. You take your chances. Also, most people don't know that some polio vaccines, adenovirus vaccines, rubella and hep A and measles vaccines have been made with aborted human fetal tissue. I have found what I believed were bacterial fragments and poliovirus in these vaccines from time to time—which may have come from that fetal tissue. When you look for contaminants in vaccines, you can come up with material that IS puzzling. You know it shouldn't be there, but you don't know exactly what you've got. I have found what I believed was a very small "fragment" of human hair and also human mucus. I have found what can only be called "foreign protein", which could mean almost anything. It could mean protein from viruses.

Q: Alarm bells are ringing all over the place.

A: How do you think I felt? Remember, this material is going into the bloodstream without passing through some of the ordinary immune defenses.

Q: How were your findings received?

A: Basically, it was, don't worry, this can't be helped. In making vaccines, you use various animals' tissue, and that's where this kind of contamination enters in. Of course, I'm not even mentioning the standard chemicals like formaldehyde, mercury, and aluminum which are purposely put into vaccines.

Q: This information is pretty staggering.

A: Yes. And I'm just mentioning some of the biological contaminants. Who knows how many others there are? Others we don't find because we don't think to look for them. If tissue from, say, a bird is used to make a vaccine, how many possible germs can be in that tissue? We have no idea. We have no idea what they might be, or what effects they could have on humans.

Q: And beyond the purity issue?

A: You are dealing with the basic faulty premise about vaccines. That they intricately stimulate the immune system to create the conditions for immunity

from disease. That is the bad premise. It doesn't work that way. A vaccine is supposed to "create" antibodies which, indirectly, offer protection against disease. However, the immune system is much larger and more involved than antibodies and their related "killer cells".

Q: The immune system is?

A: The entire body, really. Plus the mind. It's all immune system, you might say. That is why you can have, in the middle of an epidemic, those individuals who remain healthy.

Q: So the level of general health is important.

A: More than important. Vital.

Q: How are vaccine statistics falsely presented?

A: There are many ways. For example, suppose that 25 people who have received the hepatitis B vaccine come down with hepatitis. Well, hep B is a liver disease. But you can call liver disease many things. You can change the diagnosis. Then, you've concealed the root cause of the problem.

Q: And that happens?

A: All the time. It HAS to happen, if the doctors automatically assume that people who get vaccines DO NOT come down with the diseases they are now supposed to be protected from. And that is exactly what doctors assume. You see, it's circular reasoning. It's a closed system. It admits no fault. No possible fault. If a person who gets a vaccine against hepatitis gets hepatitis, or gets some other disease, the automatic assumption is, this had nothing to do with the disease.

Q: In your years working in the vaccine establishment, how many doctors did you encounter who admitted that vaccines were a problem?

A: None. There were a few who privately questioned what they were doing. But they would never go public, even within their companies.

Q: What was the turning point for you?

A: I had a friend whose baby died after a DPT shot.

Q: Did you investigate?

A: Yes, informally. I found that this baby was completely healthy before the vaccination. There was no reason for his death, except the vaccine. That started my doubts. Of course, I wanted to believe that the baby had gotten a bad shot from a bad lot. But as I looked into this further, I found that was not the case in this instance. I was being drawn into a spiral of doubt that increased over time. I continued to investigate. I found that, contrary to what I thought, vaccines are not tested in a scientific way.

Q: What do you mean?

A: For example, no long-term studies are done on any vaccines. Long-term follow-up is not done in any careful way. Why? Because, again, the assumption is made that vaccines do not cause problems. So why should anyone check? On top of that, a vaccine reaction is defined so that all bad reactions are said to occur very soon after the shot is given. But that does not make sense.

Q: Why doesn't it make sense?

A: Because the vaccine obviously acts in the body for a long period of time after it is given. A reaction can be gradual. Deterioration can be gradual.

Neurological problems can develop over time. They do in various conditions, even according to a conventional analysis. So why couldn't that be the case with vaccines? If chemical poisoning can occur gradually, why couldn't that be the case with a vaccine which contains mercury?

Q: And that is what you found?

A: Yes. You are dealing with correlations most of the time. Correlations are not perfect. But if you get 500 parents whose children have suffered neurological damage during a one-year period after having a vaccine, this should be sufficient to spark off an intense investigation.

Q: Has it been enough?

A: No. Never. This tells you something right away.

Q: Which is?

A: The people doing the investigation are not really interested in looking at the facts. They assume that the vaccines are safe. So, when they do investigate, they invariably come up with exonerations of the vaccines. They say, "This vaccine is safe." But what do they base those judgments on? They base them on definitions and ideas which automatically rule out a condemnation of the vaccine.

Q: There are numerous cases where a vaccine campaign has failed. Where people have come down with the disease against which they were vaccinated.

A: Yes, there are many such instances. And there the evidence is simply ignored. It's discounted. The experts say, if they say anything at all that this is just an isolated situation, but overall the vaccine has been shown to be safe. But if you add up all the vaccine campaigns where damage and disease have occurred, you realize that these are NOT isolated situations.

Q: Did you ever discuss what we are talking about here with colleagues, when you were still working in the vaccine establishment?

A: Yes I did.

Q: What happened?

A: Several times I was told to keep quiet. It was made clear that I should go back to work and forget my misgivings. On a few occasions, I encountered fear. Colleagues tried to avoid me. They felt they could be labeled with "guilt by association". All in all, though, I behaved myself. I made sure I didn't create problems for myself.

Q: If vaccines actually do harm, why are they given?

A: First of all, there is no "if". They do harm. It becomes a more difficult question to decide whether they do harm in those people who seem to show no harm. Then you are dealing with the kind of research which should be done, but isn't. Researchers should be probing to discover a kind of map, or flow chart, which shows exactly what vaccines do in the body from the moment they enter. This research has not been done. As to why they are given, we could sit here for two days and discuss all the reasons. As you've said many times, at different layers of the system people have their motives. Money, fear of losing a job, the desire to win brownie points, prestige, awards, promotion, misguided idealism,

unthinking habit, and so on. But, at the highest levels of the medical cartel, vaccines are a top priority because they cause a weakening of the immune system. I know that may be hard to accept, but it's true. The medical cartel, at the highest level, is not out to help people, it is out to harm them, to weaken them. To kill them. At one point in my career, I had a long conversation with a man who occupied a high government position in an African nation. He told me that he was well aware of this. He told me that WHO is a front for these depopulation interests. There is an underground, shall we say, in Africa, made up of various officials who are earnestly trying to change the lot of the poor. This network of people knows what is going on. They know that vaccines have been used, and are being used, to destroy their countries, to make them ripe for takeover by globalist powers. I have had the opportunity to speak with several of these people from this network.

Q: Is Thabo Mbeki, the president of South Africa, aware of the situation?

A: I would say he is partially aware. Perhaps he is not utterly convinced, but he is on the way to realizing the whole truth. He already knows that HIV is a hoax. He knows that the AIDS drugs are poisons which destroy the immune system. He also knows that if he speaks out, in any way, about the vaccine issue, he will be branded a lunatic. He has enough trouble after his stand on the AIDS issue.

Q: This network you speak of.

A: It has accumulated a huge amount of information about vaccines. The question is, how is a successful strategy going to be mounted? For these people, that is a difficult issue.

Q: And in the industrialized nations?

A: The medical cartel has a stranglehold, but it is diminishing. Mainly because people have the freedom to question medicines. However, if the choice issue [the right to take or reject any medicine] does not gather steam, these coming mandates about vaccines against biowarfare germs are going to win out. This is an important time.

Q: The furor over the hepatitis B vaccine seems one good avenue.

A: I think so, yes. To say that babies must have the vaccine—and then in the next breath, admitting that a person gets hep B from sexual contacts and shared needles—is a ridiculous juxtaposition. Medical authorities try to cover themselves by saying that 20,000 or so children in the US get hep B every year from "unknown causes", and that's why every baby must have the vaccine. I dispute that 20,000 figure and the so-called studies that back it up.

Q: Andrew Wakefield, the British MD who uncovered the link between the MMR vaccine and autism, has just been fired from his job in a London hospital.

A: Yes. Wakefield performed a great service. His correlations between the vaccine and autism are stunning. Perhaps you know that Tony Blair's wife is involved with alternative health. There is the possibility that their child has not been given the MMR. Blair recently side-stepped the question in press interviews, and made it seem that he was simply objecting to invasive questioning of his "personal and family life". In any event, I believe his wife has been

muzzled. I think, if given the chance, she would at least say she is sympathetic to all the families who have come forward and stated that their children were severely damaged by the MMR.

Q: British reporters should try to get through to her.

A: They have been trying. But I think she has made a deal with her husband to keep quiet, no matter what. She could do a great deal of good if she breaks her promise. I have been told she is under pressure, and not just from her husband. At the level she occupies, MI6 and British health authorities get into the act. It is thought of as a matter of national security.

Q: Well, it is national security, once you understand the medical cartel.

A: It is global security. The cartel operates in every nation. It zealously guards the sanctity of vaccines. Questioning these vaccines is on the same level as a Vatican bishop questioning the sanctity of the sacrament of the Eucharist in the Catholic Church.

Q: I know that a Hollywood celebrity stating publicly that he will not take a vaccine is committing career suicide.

A: Hollywood is linked very powerfully to the medical cartel. There are several reasons, but one of them is simply that an actor who is famous can draw a huge amount of publicity if he says ANYTHING. In 1992, I was present at your demonstration against the FDA in downtown Los Angeles. One or two actors spoke against the FDA. Since that time, you would be hard pressed to find an actor who has spoken out in any way against the medical cartel.

Q: Within the National Institutes of Health, what is the mood, what is the basic frame of mind?

A: People are competing for research monies. The last thing they think about is challenging the status quo. They are already in an intramural war for that money. They don't need more trouble. This is a very insulated system. It depends on the idea that, by and large, modern medicine is very successful on every frontier. To admit systemic problems in any area is to cast doubt on the whole enterprise. You might therefore think that NIH is the last place one should think about holding demonstrations. But just the reverse is true. If five thousand people showed up there demanding an accounting of the actual benefits of that research system, demanding to know what real health benefits have been conferred on the public from the billions of wasted dollars funneled to that facility, something might start. A spark might go off. You might get, with further demonstrations, all sorts of fall-out. Researchers—a few—might start leaking information.

Q: A good idea.

A: People in suits standing as close to the buildings as the police will allow. People in business suits, in jogging suits, mothers and babies. Well-off people. Poor people. All sorts of people.

Q: What about the combined destructive power of a number of vaccines given to babies these days?

A: It is a travesty and a crime. There are no real studies of any depth which have been done on that. Again, the assumption is made that vaccines are safe, and therefore any number of vaccines given together are safe as well. But the truth is, vaccines are not

safe. Therefore the potential damage increases when you give many of them in a short time period.

Q: Then we have the fall flu season.

A: Yes. As if only in the autumn do these germs float in to the US from Asia. The public swallows that premise. If it happens in April, it is a bad cold. If it happens in October, it is the flu.

Q: Do you regret having worked all those years in the vaccine field?

A: Yes. But after this interview, I'll regret it a little less. And I work in other ways. I give out information to certain people, when I think they will use it well.

Q: What is one thing you want the public to understand?

A: That the burden of proof in establishing the safety and efficacy of vaccines is on the people who manufacture and license them for public use. Just that. The burden of proof is not on you or me. And for proof you need well-designed long-term studies. You need extensive follow-up. You need to interview mothers and pay attention to what mothers say about their babies and what happens to them after vaccination. You need all these things. The things that are not there.

Q: The things that are not there.

A: Yes.

Q: To avoid any confusion, I'd like you to review, once more, the disease problems that vaccines can cause. Which diseases, how that happens.

A: We are basically talking about two potential harmful outcomes. One, the person gets the disease from the vaccine. He gets the disease which the vaccine is supposed to protect him from. Because, some version of the disease is in the vaccine to begin with. Or two, he doesn't get THAT disease, but at some later time, maybe right away, maybe not, he develops another condition which is caused by the vaccine. That condition could be autism, what's called autism, or it could be some other disease like meningitis. He could become mentally disabled.

Q: Is there any way to compare the relative frequency of these different outcomes?

A: No. Because the follow-up is poor. We can only guess. If you ask, out of a population of a hundred thousand children who get a measles vaccine, how many get the measles, and how many develop other problems from the vaccine, there is a no reliable answer. That is what I'm saying. Vaccines are superstitions. And with superstitions, you don't get facts you can use. You only get stories, most of which are designed to enforce the superstition. But, from many vaccine campaigns, we can piece together a narrative that does reveal some very disturbing things. People have been harmed. The harm is real, and it can be deep and it can mean death. The harm is NOT limited to a few cases, as we have been led to believe. In the US, there are groups of mothers who are testifying about autism and childhood vaccines. They are coming forward and standing up at meetings. They are essentially trying to fill in the gap that has been created by the researchers and doctors who turn their backs on the whole thing.

Q: Let me ask you this. If you took a child in, say,

Boston and you raised that child with good nutritious food and he exercised every day and he was loved by his parents, and he didn't get the measles vaccine, what would be his health status compared with the average child in Boston who eats poorly and watches five hours of TV a day and gets the measles vaccine?

A: Of course there are many factors involved, but I would bet on the better health status for the first child. If he gets measles, if he gets it when he is nine, the chances are it will be much lighter than the measles the second child might get. I would bet on the first child every time.

Q: How long did you work with vaccines?

A: A long time. Longer than ten years.

Q: Looking back now, can you recall any good reason to say that vaccines are successful?

A: No, I can't. If I had a child now, the last thing I would allow is vaccination. I would move out of the state if I had to. I would change the family name. I would disappear. With my family. I'm not saying it would come to that. There are ways to sidestep the system with grace, if you know how to act. There are exemptions you can declare, in every state, based on religious and/or philosophic views. But if push came to shove, I would go on the move.

Q: And yet there are children everywhere who do get vaccines and appear to be healthy.

A: The operative word is "appear". What about all the children who can't focus on their studies? What about the children who have tantrums from time to time? What about the children who are not quite in possession of all their mental faculties? I know there are many causes for these things, but vaccines are one cause. I would not take the chance. I see no reason to take the chance. And frankly, I see no reason to allow the government to have the last word. Government medicine is, from my experience, often a contradiction in terms. You get one or the other, but not both.

Q: So we come to the level playing field.

A: Yes. Allow those who want the vaccines to take them. Allow the dissidents to decline to take them. But, as I said earlier, there is no level playing field if the field is strewn with lies. And when babies are involved, you have parents making all the decisions. Those parents need a heavy dose of truth. What about the child I spoke of who died from the DPT shot? What information did his parents act on? I can tell you it was heavily weighted. It was not real information.

Q: Medical PR people, in concert with the press, scare the hell out of parents with dire scenarios about what will happen if their kids don't get shots.

A: They make it seem a crime to refuse the vaccine. They equate it with bad parenting. You fight that with better information. It is always a challenge to buck the authorities. And only you can decide whether to do it. It is every person's responsibility to make up his mind. The medical cartel likes that bet. It is betting that the fear will win.

Dr. Mark Randall is the pseudonym of a vaccine researcher who worked for many years in the labs of major pharmaceutical houses and the US government's

National Institutes of Health. Mark retired during the last decade. He says he was "disgusted with what he discovered about vaccines".

As you know, since the beginning of nomorefakenews.com, I have been launching an attack against non-scientific and dangerous assertions about the safety and efficacy of vaccines.

Mark has been one of my sources.

He is a little reluctant to speak out, even under the cover of anonymity, but with the current push to make vaccines mandatory—with penalties like quarantine lurking in the wings—he has decided to break his silence.

He lives comfortably in retirement, but like many of my long-time sources, he has developed a conscience about his former work. Mark is well aware of the scope of the medical cartel and its goals of depopulation, mind control, and general debilitation of populations.

[EJ: Yes, there is one single solution to all of these problems and chaos. That solution is called:]

The REAL American System

by E J Ekker

July 22, 2009

The reason I use the word REAL in the title of this piece is to draw attention to the fact that Lyndon LaRouche has hi-jacked the term "American System" in a slithery attempt to legitimize his own scheme, which is virtually an anti-American System. Discrediting such an accepted economic icon as LaRouche does little to enhance my credibility so even if you discard my criticism as sour-graping; I will ask you to simply apply logic to what I say and see if we cannot find a solution to the problem. Generally speaking, no one is dealing with the Root Cause of the problem and until we identify and accept that cause we will continue to follow false leads toward wrong solutions.

The Root Cause of the problem was taught to us in our first few classes in whatever church we happened to attend. It sounded like this: "The war in heaven is between God and Lucifer for men's souls." I am fully convinced that that condition is at least as true as it was when I first heard it some 70 years ago. Whether we wish to face and acknowledge it or not, most of the world and most of people in it are under the economic control of Lucifer and his minions that are most commonly referred to as "globalists". To be more accurate and explicit I wish to call them the International Banking Cartel (IBC).

Continuing to define the Root Cause, it is not difficult for a thinking person to accept that the unfettered ability to issue and control the availability and the relative value of virtually every nation's currency, which the IBC does via its ownership and/or control of almost all Central Banks, the BIS (Bank for International Settlements), the IMF, the World Bank (WB), The Bank of England, and the Federal Reserve System (FED). The control of the quantity and

relative price (foreign exchange) of any nation's currency provides control of the nation's Legislature, Judiciary, Administration, Law Enforcement, and Military through bribery, all at zero cost since the bribe money is simply supplied by its Central Bank "printing press".

So, you may say: "EJ, you preach to the choir--I know all of that." No, if you claim to be a patriot, you do not or you would not sheepily subscribe, and continue to allow other important patriots to subscribe, to the obvious idiocy of "Audit the FED". Pray tell me, WHO will serve as the auditors? Will there be an Arden and a proper selection of State Auditors on that team? Suppose some rebel on the Auditing Team does manage to find an "anomaly" that commands sufficient attention to force what you think you desire, and what LaRouche requires for the realization of his dream, Bankruptcy of the FED. All Bankruptcy Courts are Federal. Surely you can predict the outcome of that action: Anything "they" want it to be. I predict that they want it to be a Final Determination that the People owe the debt. Is that what you want? Well, that is what you will get if you continue to pursue that course. You are just about to give them every reason to put your (our) bondage in concrete and then the only recourse will be out-and-out rebellion. If my perception of the progress you have made with the Sheriff is correct you are many months from earning the understanding and loyalty of the young soldiers and police from whence the move for true freedom must come.

That is a simple matter of education that requires "access" and to start with the flu inoculations seems to me the perfect platform. I would expect that the "average sheriff" has never heard that he is supposed to operate in a corporate environment, even if every Judge on every Bench is well versed in his position vis a vis the "*Constitution*". They are all sent to a very secret school for that purpose but they are also taught to never reveal the source of their ability to ignore the rights of the citizens as provided by the *Constitution*. The secrecy and Masonic-type commitment to secrecy is no less a characteristic of the Judges than it is of the non-Jewish Rabbis and I say this to remind you that you must know your adversary.

I will put this in a separate paragraph for emphasis: In a Bankruptcy Court, as promulgated by LaRouche, you will win exactly what THEY want--the acceptance of their (the US Corporation) debt by you, the so-called taxpayers. They will use the Bankruptcy Court to solidify (you know, Concrete?) their position as creditors.

Stupidity and idiocy are the misuse of knowledge; Ignorance is the lack of knowledge. The former deserves ignoring if not derision; the latter deserves recognition and strong efforts to remedy. On the plane of logic what I say will be accurate; within the chaos of the plane in which virtually all Americans are mired it will be very difficult to rise high enough to see the whole picture. I recognize my advantage: I have been here "on Mt Olympus" for 11 years looking down, if you will, at the entire world and not particularly focused on the "home", the US of A.

The IBC is trying to foreclose" and surely they are becoming a bit desperate because there is resistance. They must implement some supplementary chaos such as the flu to distract the people from their economic machinations--

--too many people are seeing through those machinations and tattling on them via the Internet. Please allow me to point out that men, even the most erudite military planners, do not have such unrelated but appropriate back-up plans in place. Only an entity with the grand plan and vision of Lucifer can accomplish that. But, God also has a plan and it surely includes exposing the plan of Lucifer. As long as we are grateful to God for showing us the way He will continue to do so; only He can thwart Lucifer--all of our patriot friends cannot beat Lucifer without His guidance. Just look at how misguided you are; Lucifer has you all chasing your tail in a desperate effort to prove the FED is a fraud while also proving that the debt of the US Corporation is legitimate. You are getting nowhere!

OK, EJ, you say, we see the Root and we know the Adversary is tough; so what do we do?

First we have to look at how Lucifer set and sprung his trap. It has a name: The Debt Trap. Many Godly men have exposed it, even if they ascribed it as a purely human thing. Not many have seen it for what it is: the result of Lucifer's long-term plan to ensnare the souls of men. Lucifer's plan depends upon the natural or induced avarice of men: Money equals power; power equals recognition, control, sex, and all the many "luxuries" we are brainwashed to desire. As you know very well, I am no prig but at age 78 I must admit that most of my wild oats have been sown. I say this so that our friends do not take me for an asinine preacher. I can claim to be as American as anyone.

My point is that, given a choice between the Hollywood-created Heaven and Hell, almost everybody opts for the good life promised by Hell so we can observe the blandishments of Lucifer operating even in our every day life. Can you please imagine the temptations of virtually unlimited money offered by Central Banks at no (publicly known) cost? In today's Luciferian-created society that has to represent POWER³. Yes, I do mean to the third power, far beyond squared.

That is what Lucifer, the Adversary, has with which to work his control of the nation's Legislature, Judiciary, Administration, Law Enforcement, and Military through bribery, all at zero cost since the bribe money is simply supplied by its Central Bank "printing press", which he also controls. [I repeat this deliberately.]

What is the antidote? It is so simple that it evades Patriots by the dozens, especially those that watch the grand productions of Lyndon LaRouche. The only antidote is gold and Mr. LaRouche, espousing his "improvement" on the already proven failed Bretton Woods scheme is allowed by you patriots, snowed by his flowery language, to lead you like lemmings to the cliff of disaster. Sad. Can enough of you be awakened soon enough? Yes. God Wins.

Gold, gold based money chops the legs from under the IBC--fiat-dependent money-system that is, along with usury and fractional banking, giving the IBC its current virtually absolute control of ALL of the economies of the world.

Like most Americans, and especially the Patriots, I tend to be "paternalistic" and thinking in terms of the world rather than this one little country where I happen to be: The Philippines. However, there is no reason that a pattern developed here can not be useful in even such a

big problem-country as the USA.

To move away briefly from the USA problems, let us look at how a fairly new nation called the Sultanate of Sulu, Inc., might operate. It has no banking system so it is relieved of the problem of getting rid of one. It can set up its Public Utility Bank on the basis currently practiced by Islamic banks wherein loans are made on the basis of Joint Ventures whereby any profit to the bank is dependant upon the success of the project so that it is incumbent upon the bank to behave as a supportive partner. With the assistance of the GAIA DEEDs to provide the banking reserves (payable in gold, remember?) the amount of project money is virtually unlimited--at least to the extent of the gold belonging to the Sultanate that conservatively exceeds \$1 trillion. The fact that the Sultanate gold is large only assures that there is adequate gold to support even the states United should they conclude that gold is the way to go.

Briefly, to carry this a bit further, gold based money is its own "foreign exchange" and a check written to Boeing for a new 747, or a million-gallon tanker full of gasoline will be most welcome by the seller. To those who understand it, gold based money is the same as gold and these days only elite economists such as Mr. LaRouche can afford to thumb their noses at it. The Sultanate of Sulu, and any nation that cares to use the GAIA Program, can almost instantly fund every project brought to it by its people. Its success and longevity will depend upon its care in selecting the people and projects that it funds so that each and every one succeeds, making a profit for the bank that can be partially paid to its depositors and partially used to fund new projects. In the background stands the Sultanate always ready to furnish more Public Utility Money, knowing that each completed project increases the value of the Sultanate Corporation as an offset to the funds it has issued for the project.

How does this work for the states United? The GAIA part is the easy part; the hard part is to get the States to reestablish their sovereignty by recovering their *Constitution*. That requires getting 34 states singing from the same book on the same page and there are many Luciferian-bribed people in those State legislatures--witness New Jersey--who will be singing off key. However, it is not impossible and this is God's millennium so there is no reason to be pessimistic. Some States have already passed the legislation and a few governors have signed it into law--as soon as those States tell their people not to send any more money to Washington and send only half as much to their State Treasury, the game will be nearly over for the Luciferians.

Bankruptcy then becomes a Boon to the States and not the Bane it is intended to be by the misguided "Audit the FED" mantra. THEY want you to Audit the FED and they want you to put it in Bankruptcy to assure that the "law" is on their side and solidifies in the minds of the people that they owe all of those bailout trillions. No they don't. The USA CORPORATION does. When the States recover their *Constitution* they have no responsibility for the CORPORATION that was set up in 1933 and all of the debt that it has accumulated since.

Think with me, please. Was it the Republic or the Corporation that set up the Department of Education, the Department of Health and Welfare, the Bureau of

Land Management and all of the other Departments and Divisions? It was not the Republic because there is no provision in the *Constitution* for those “Federal” entities. Please look at the states United as the strong States that were meant to be and discard all of those non-State entities that are tying the hands and sucking the blood of the States. That is the picture that needs to be projected into the minds of the Patriots as you speak with State Legislators about recovering their sovereignty.

Yes, I will correct you patriots on a number of points. You mention “repudiate the debt” (of Goldman, etc.). Is that not a legal matter that should demand a hearing in court? Do not you recognize a Tar Baby when you see one? If you had the backing of 34 States you could do that but as it is it is sheer stupidity to try.

The house-cleaning cannot stop with just the Federal bureaucracy; we will have to clean up (or out) the stock exchanges, the commodity exchanges, and all of the other games invented by the IBC to take the money from the working people. All of the insurance companies are rotten--not just AIG--and with Public Utility Money will come other Public Utilities--perhaps one for health care. All of those things are matters for each State to handle. As long as currency is based upon gold it will be freely exchangeable among nations as well as States. Who is to say that Nebraska can't have its own currency as long as it is honored in Illinois?

What are the steps required to get there? 1) Abandon the “Audit the FED” idea and put the energy into States Sovereignty. 2) Move heaven and earth, or whatever it takes to get Sarah or some gutsy governor to tell the companies and people to stop feeding the dragon in Washington and keep at least half the money in your pocket. You have to get some broader public attention and that is at least one way to do it. The people will go crazy with the idea and the press will not be silent or in opposition. If a “night editor” tries to censor or modify an article on that subject the 50 or so workers under him will shred him--the story will go out--but it has to get started.

3) There are States that have taken action and to do so they have to have considered what they will do once they are free. We don't have to get into that but we can be useful in assisting them with getting rid of ALL of their debt as well as helping them set up their non-usurious Public Utility Banking System. The opening requirement is for the Treasurer of each State to figure out how much money he will need so that we can make the DEED in the correct amount. At this point I feel quite confident that we will find the gold required to support gold based money in every State without any strain at all.

At the “Federal” level there won't be much debt left. As I recall, less than 5 billion or 200 tons. Somewhere they claim to have 8,000 tons so there are really no serious problems to stop this from working once we recognize the Root Cause and act to stop feeding it. Not one more cent to Washington D.C. will be that Single Solution. The return of control of the States will kill the flu; to recognize and assure yourselves of that truth all you need to do is re-read the foregoing articles with that in mind. The bottom line there is called: “County Sheriff”.

PHOENIX JOURNALS LIST

THE FOLLOWING WORKS BY HATONN AND OTHERS OF THE 'HOSTS OF HEAVEN' FORM A SERIES CALLED **THE PHOENIX JOURNALS** AND WERE RECEIVED DURING **PHASE I** OF THIS MISSION THROUGH "dharmā" (DORIS EKKER). THE LAST BOOK IS A COMPILATION OF SCHOLARLY PRESENTATIONS BY LONGTIME STUDENT AND RESEARCHER NORA BOYLES. ALL WERE WRITTEN TO ASSIST MANKIND IN BECOMING AWARE OF LONG-STANDING DECEPTIONS AND OTHER MATTERS CRITICAL TO OUR SURVIVAL AS A SPECIES AT THIS TIME.

MANY IN THE SERIES ARE NO LONGER IN PRINT, AND MANY ARE IN SHORT SUPPLY, BUT EACH IS AS TIMELY AND HELPFUL FOR OUR AWAKENING AS WHEN THEY WERE FIRST ISSUED. (MOST ARE FULLY INDEXED AS WELL.) STILL OTHERS HAVE NEVER APPEARED IN PRINT (HENCE THE LARGE GAPS IN NUMBERING). PHOENIX SOURCE DISTRIBUTORS IS PLEASED TO BE ABLE TO CONTINUE OFFERING **THE PHOENIX JOURNALS** AT **ONLY \$6 EACH**, A BARGAIN CONSIDERING THAT THEY AVERAGE 200 PAGES A PIECE (shipping is extra—please call the office for exact rates). GET THEM NOW WHILE THEY'RE STILL AVAILABLE AND AT THESE INCREDIBLY LOW PRICES!

1. SIPAPU ODYSSEY
2. AND THEY CALLED HIS NAME IMMANUEL—I AM SANANDA

Everybody can be great... because anybody can serve. You don't have to have a college degree to serve. You don't have to make your subject and verb agree to serve. You only need a heart full of grace. A soul generated by love.

—Martin Luther King, Jr.
